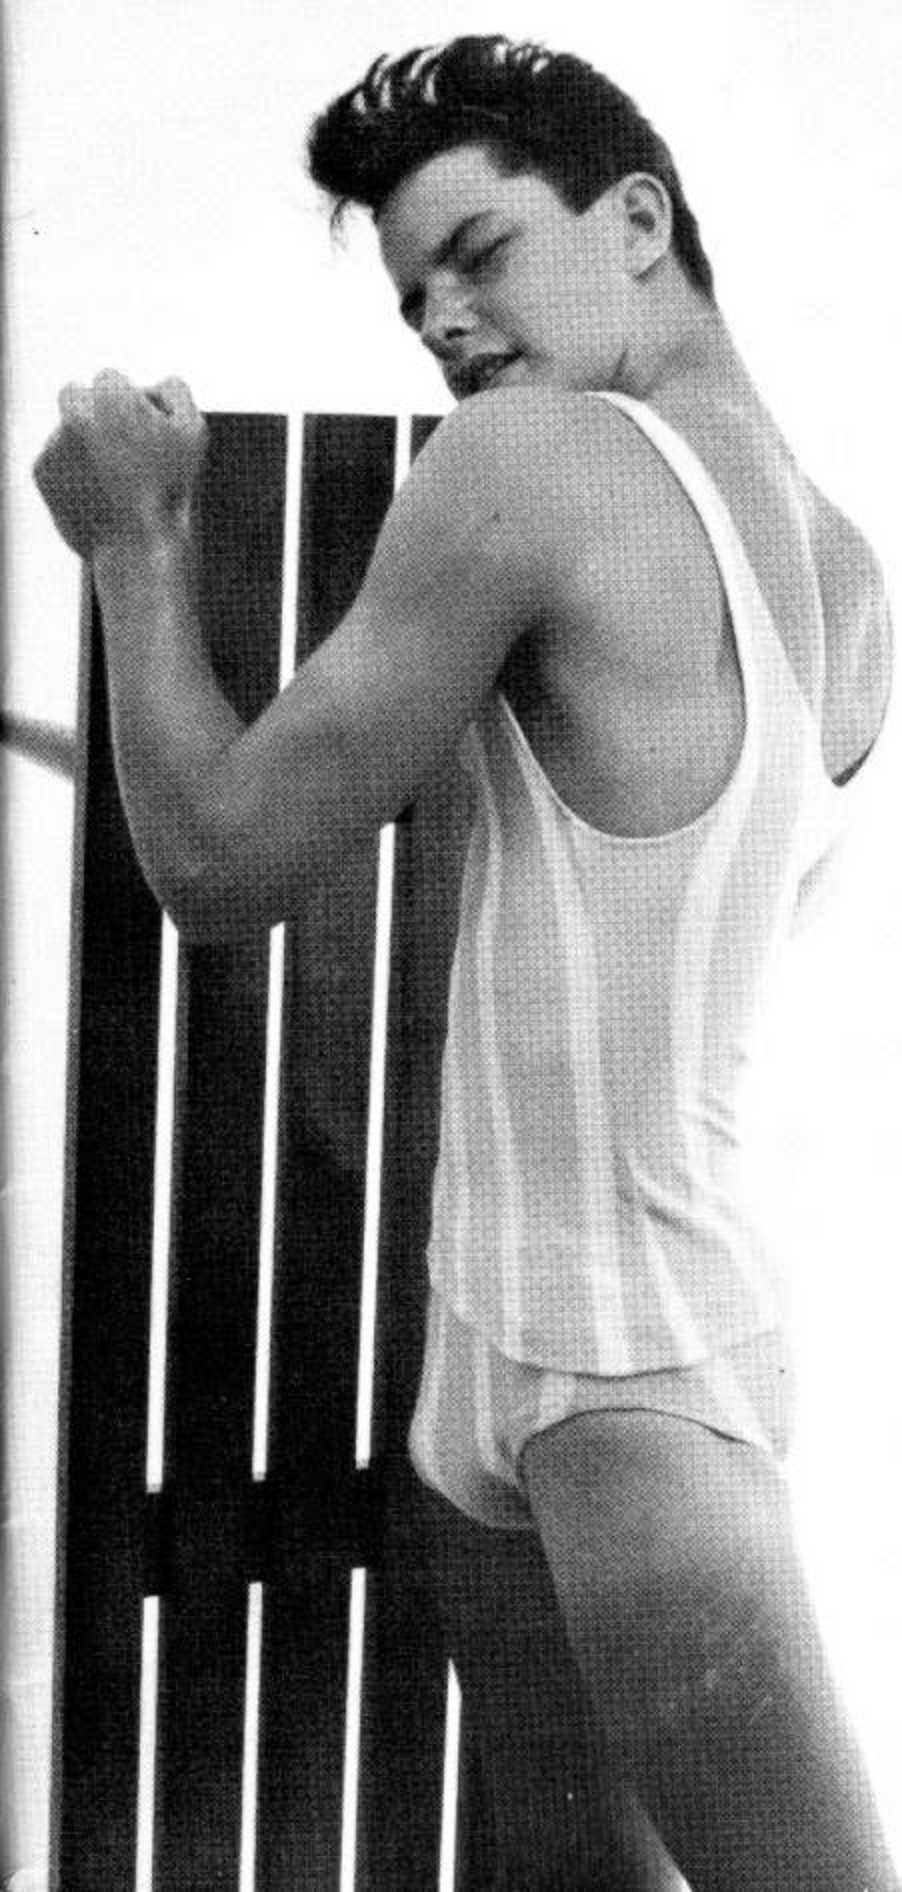
COVERMAN: BUTCH MORGAN—Great New 16 year old star. Butch is a rapidly maturing young teener who is a remarkably intelligent and perceptive person. Popular in school and in his home town, Butch is making plans to go to college a couple of years from now. These exciting photos by BOB ANTHONY.



Rise and Shine!, STEPHANO. Candid photos by CLIMAX STUDIO.

SEX SURVEY

'CASTRATION' UNDERWEAR !

Did you know that your underwear may impair your virility? It's true. Shorts which incorporate 'jockey' supporter principles can have a definite adverse effect on the male glands. These glands, the testicles, are intended by nature to function at a lower temperature than the rest of the body. This is why they are suspended externally in a sac of skin (scrotum) and have an elaborate muscular system which automatically raises and lowers them in order to control their temperature by their proximity to the main body. You have probably noticed how these muscles tighten up in cold conditions and relax in warm ones.

Some kinds of underwear 'pouch' the glands close to the body, where they are at a rather warm temperature. Lest you think that this cannot really have much effect—consider this: cases of infertility have been cured by the patient's avoidance of frequent hot baths; and, for the book, experiments have shown that rams can be rendered completely sterile by applying heat to their testicles.

Much advertising tends to suggest that pouch style shorts give you vim and vigor. This is quite contrary to the truth! Our hardy ancestors did not open up the West wearing two-way stretch underwear, and *their* hardy ancestors had 'codpeices' provided in their breeches to allow both ample room and protection.

Bikinis may look becoming, but as far as your health is concerned, they had better becoming off.

WILL JEALOUSY GET YOU ANYWHERE?

Readers of ladies' magazines frequently ask if there is any way for them to develop breasts more bounteous than those which came naturally. The usual reply of the magazines' medical consultants is 'Sorry.' Rather a similar case is involved when males write in to male magazines asking if anything can be done to increase the size of their organs.

The medical profession is mainly devoted—rightly—to healing the sick, relieving pain, and raising health standards. Bosom jealousy and penis envy do not rate as urgent with the average medical man. Say the doctors: 'It isn't what you've got but how you use it!'

Well, nearly all the doctors say that. Dr. Edwin W. Hirsch is one, however, who does not. Dr. Hirsch recognizes that many a male is seriously disturbed by the real or imagined small size of his organ, and that this fear may easily inhibit the achievement of mature sexual relationships. He points out that in cases where the penis is under-developed, several methods of treatment are available, and therefore anxieties on this score are not necessary. In cases of slight under-development, he suggests this exercise: 'By stretching exercise of the erectile organ daily, the length of the organ can be appreciably increased. Continued exercise of the organ will show a lengthening within three months' time, but a year and a half to two years of penile exercise will be necessary to effect a marked improvement. Massage at the base of the penis underneath the scrotum with hormonal cream aids in eliciting beneficial results. Inferiority because of a diminutive organ can thus be dissipated.[1]'

This will certainly be news for many males.

TESTICULAR ATROPHY

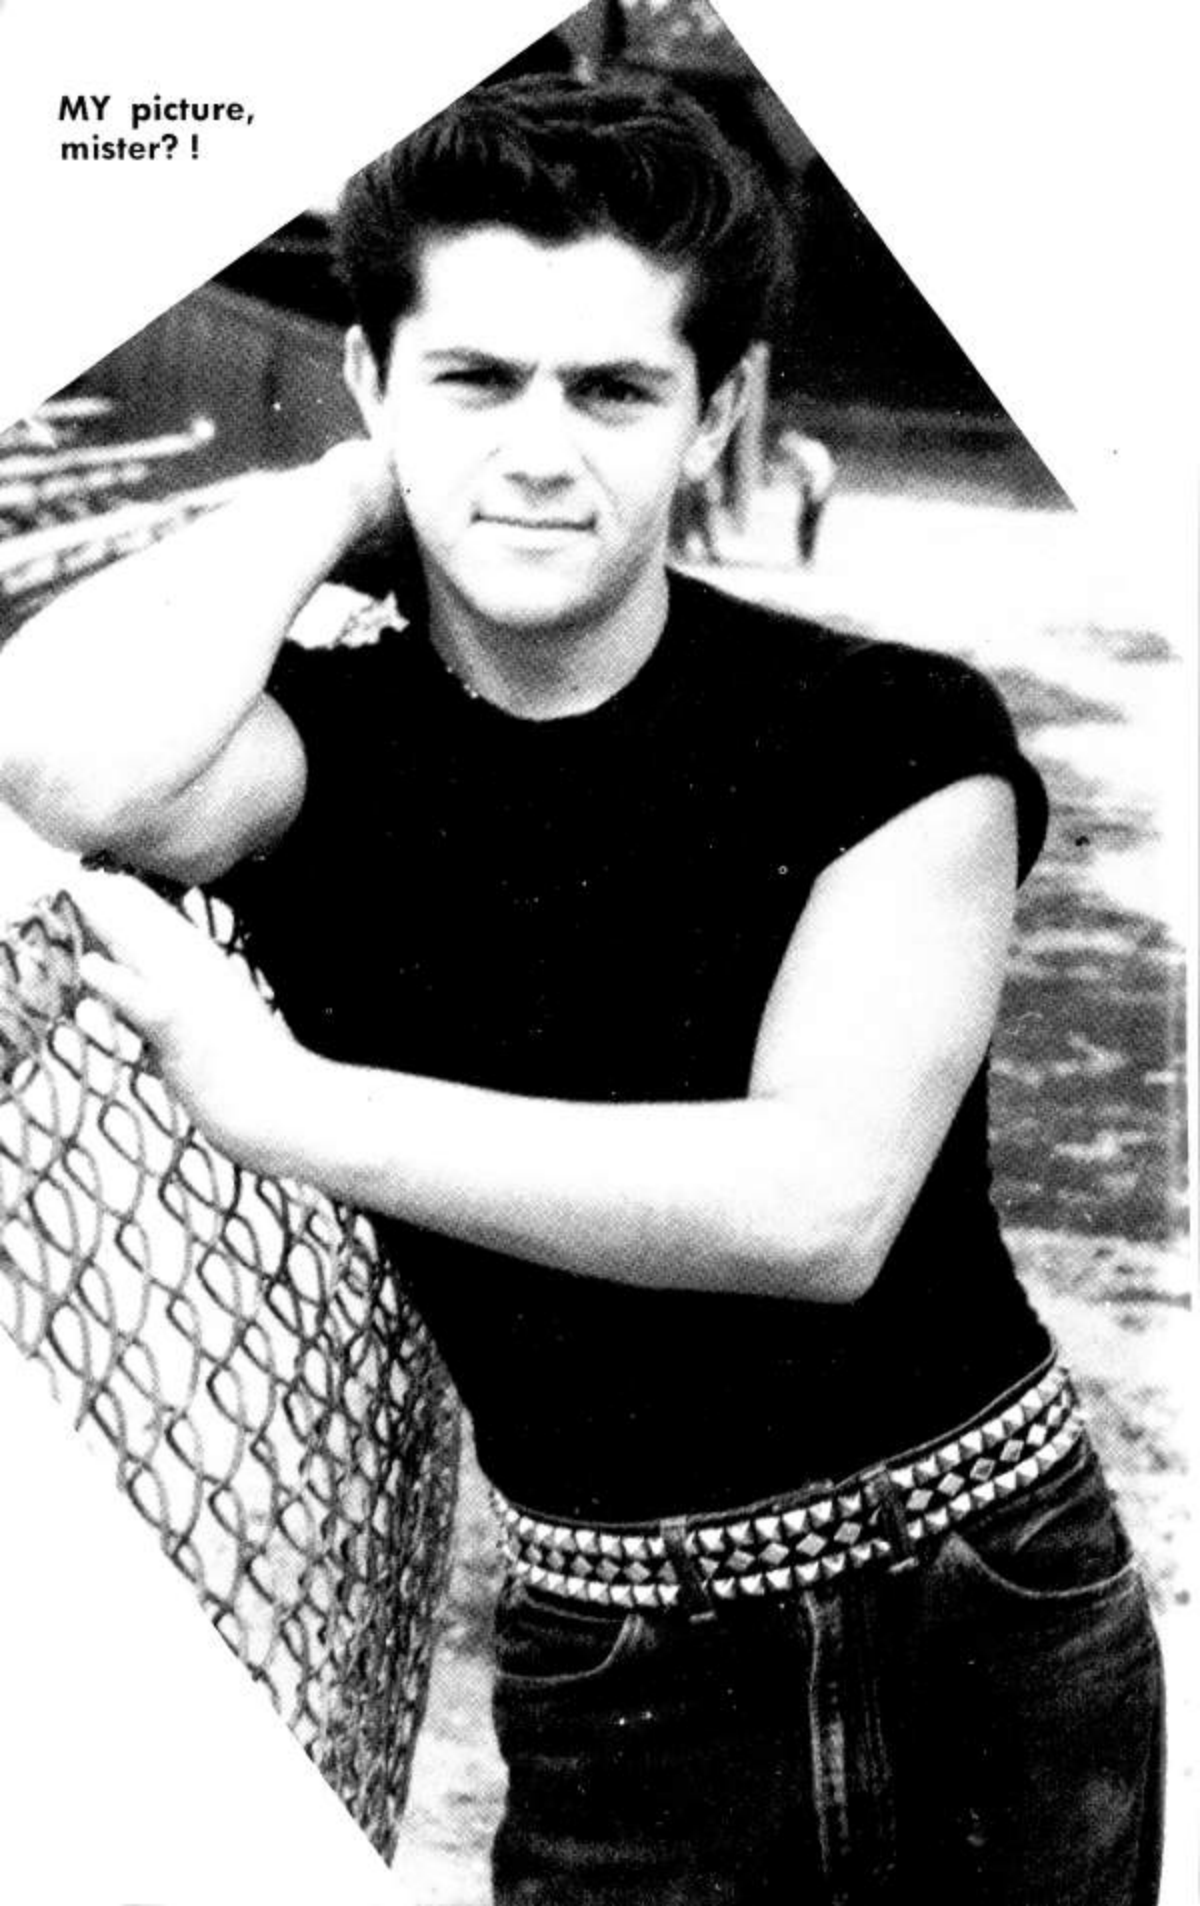
Atrophy is the name given to the condition of an organ which has become non-operative through injury, disease or disuse. Occasionally the male testicles—either or both—become atrophied. This may be the result of certain diseases which tend to attack the glands, or a physical injury such as a blow or kick. It sometimes follows Orchitis (inflammation of the testicles). Males who suffer from testicular atrophy naturally are prone to wonder if it will render them sterile or have other side effects.

Usually, only one testicle is affected, and in this case there is little or no impairment of the glands' function. Cases where both testicles are affected result in sterility, but generally not in 'demasculinization'—depending somewhat on the age at which the organs began to atrophy.

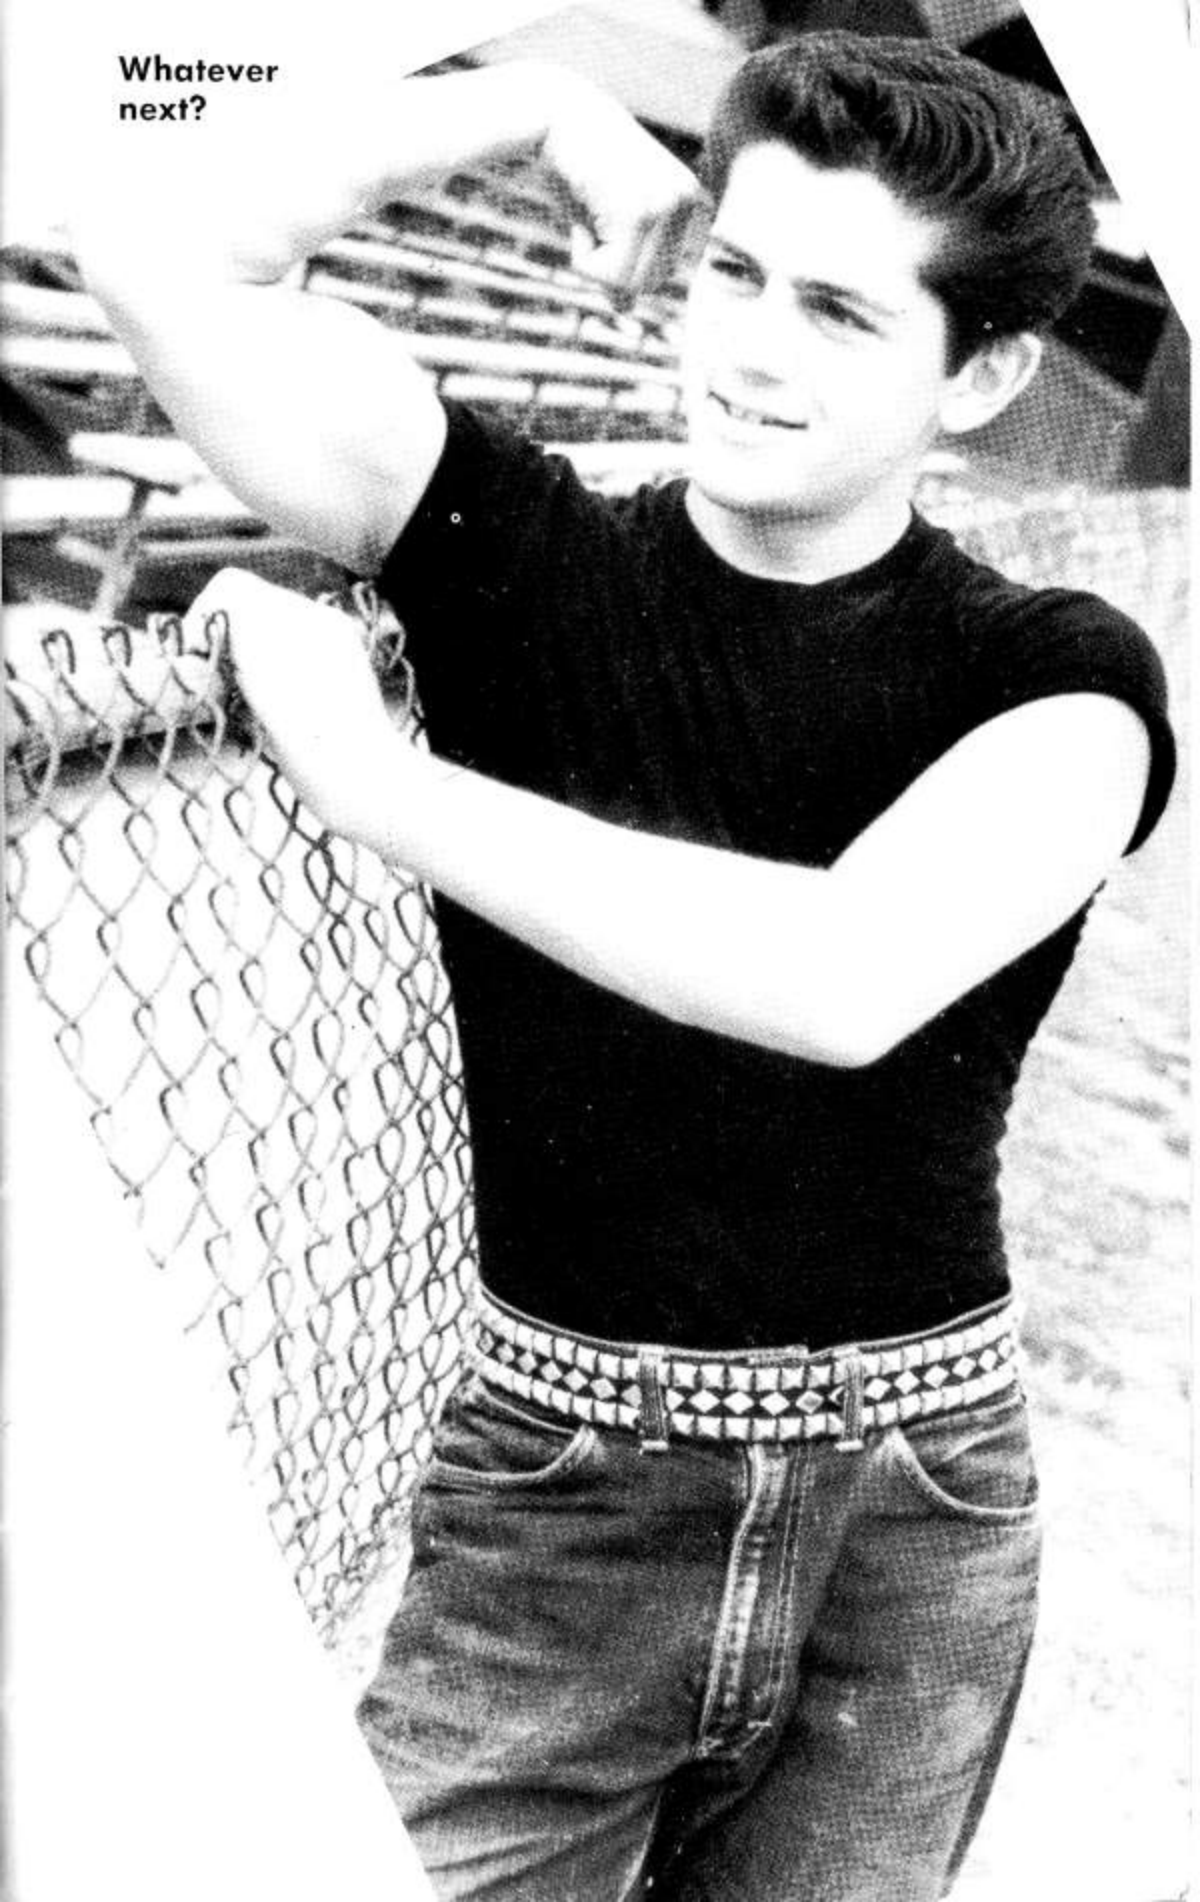
A surprinsingly large number of males have undeveloped testicles on one side—in fact, very few have 'identical' glands—and in nearly all cases this is without significance. The only way to determine whether an undeveloped or atrophied testicle is a liability is a medical examination by your doctor.

---

1 This quotation is from 'Sexual Fear,' by Edwin W. Hirsch, MD, chapter 13. Published by Garden City, and available in the paperback Pyramid Books series.



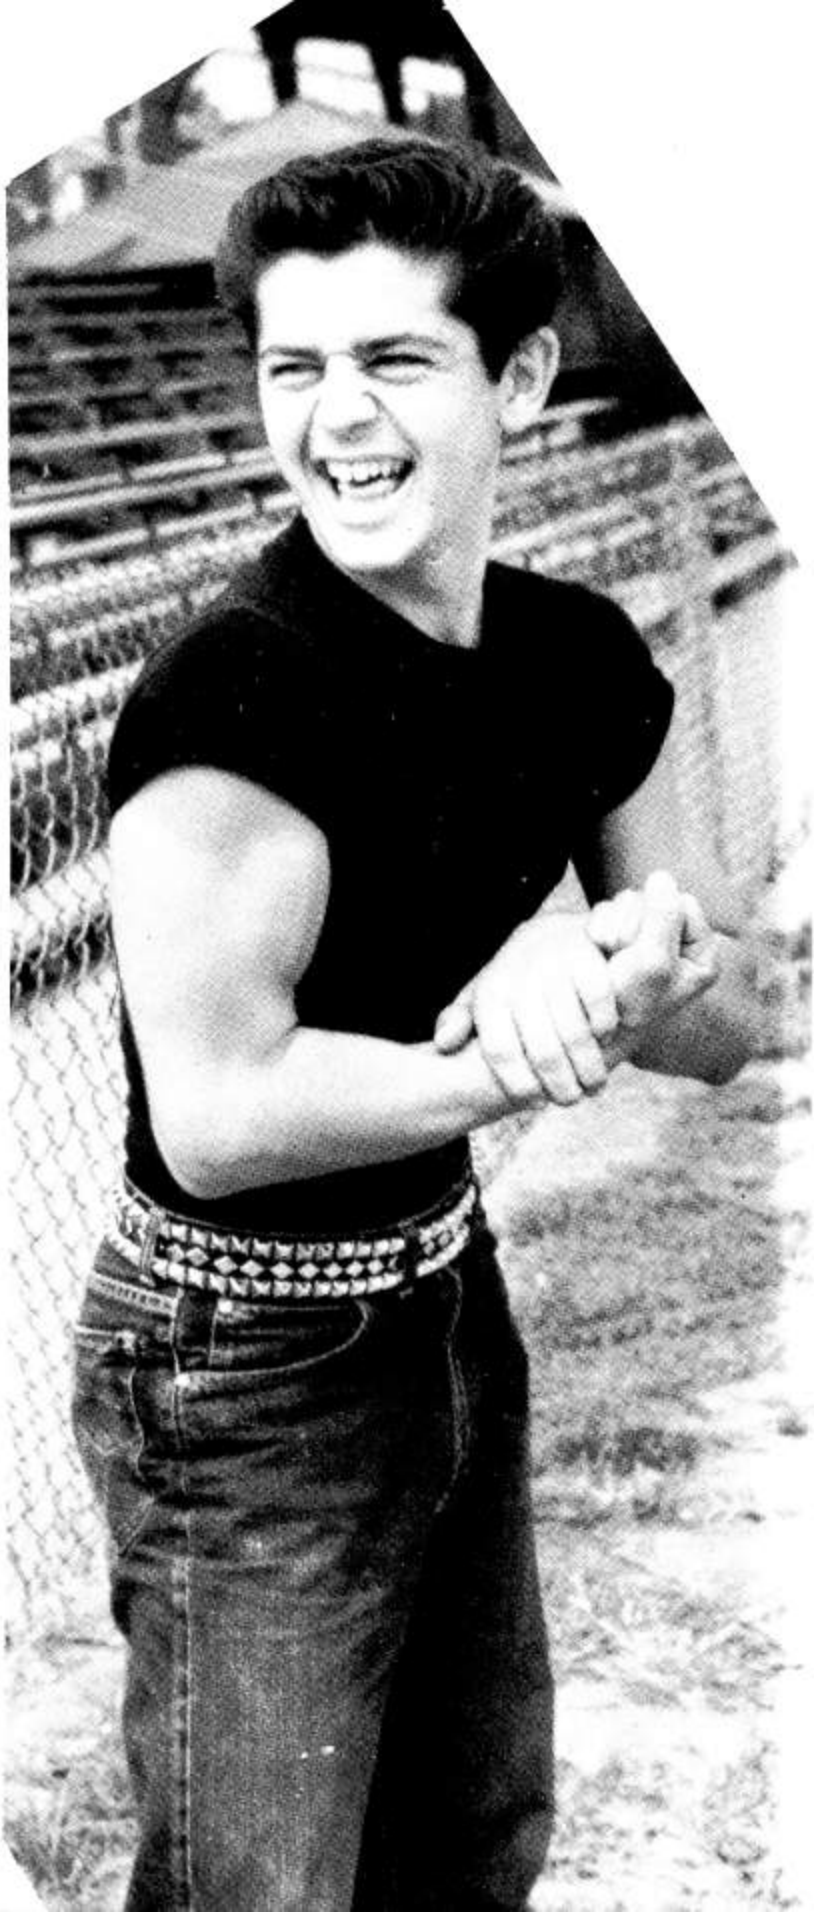
MY picture,
mister? !

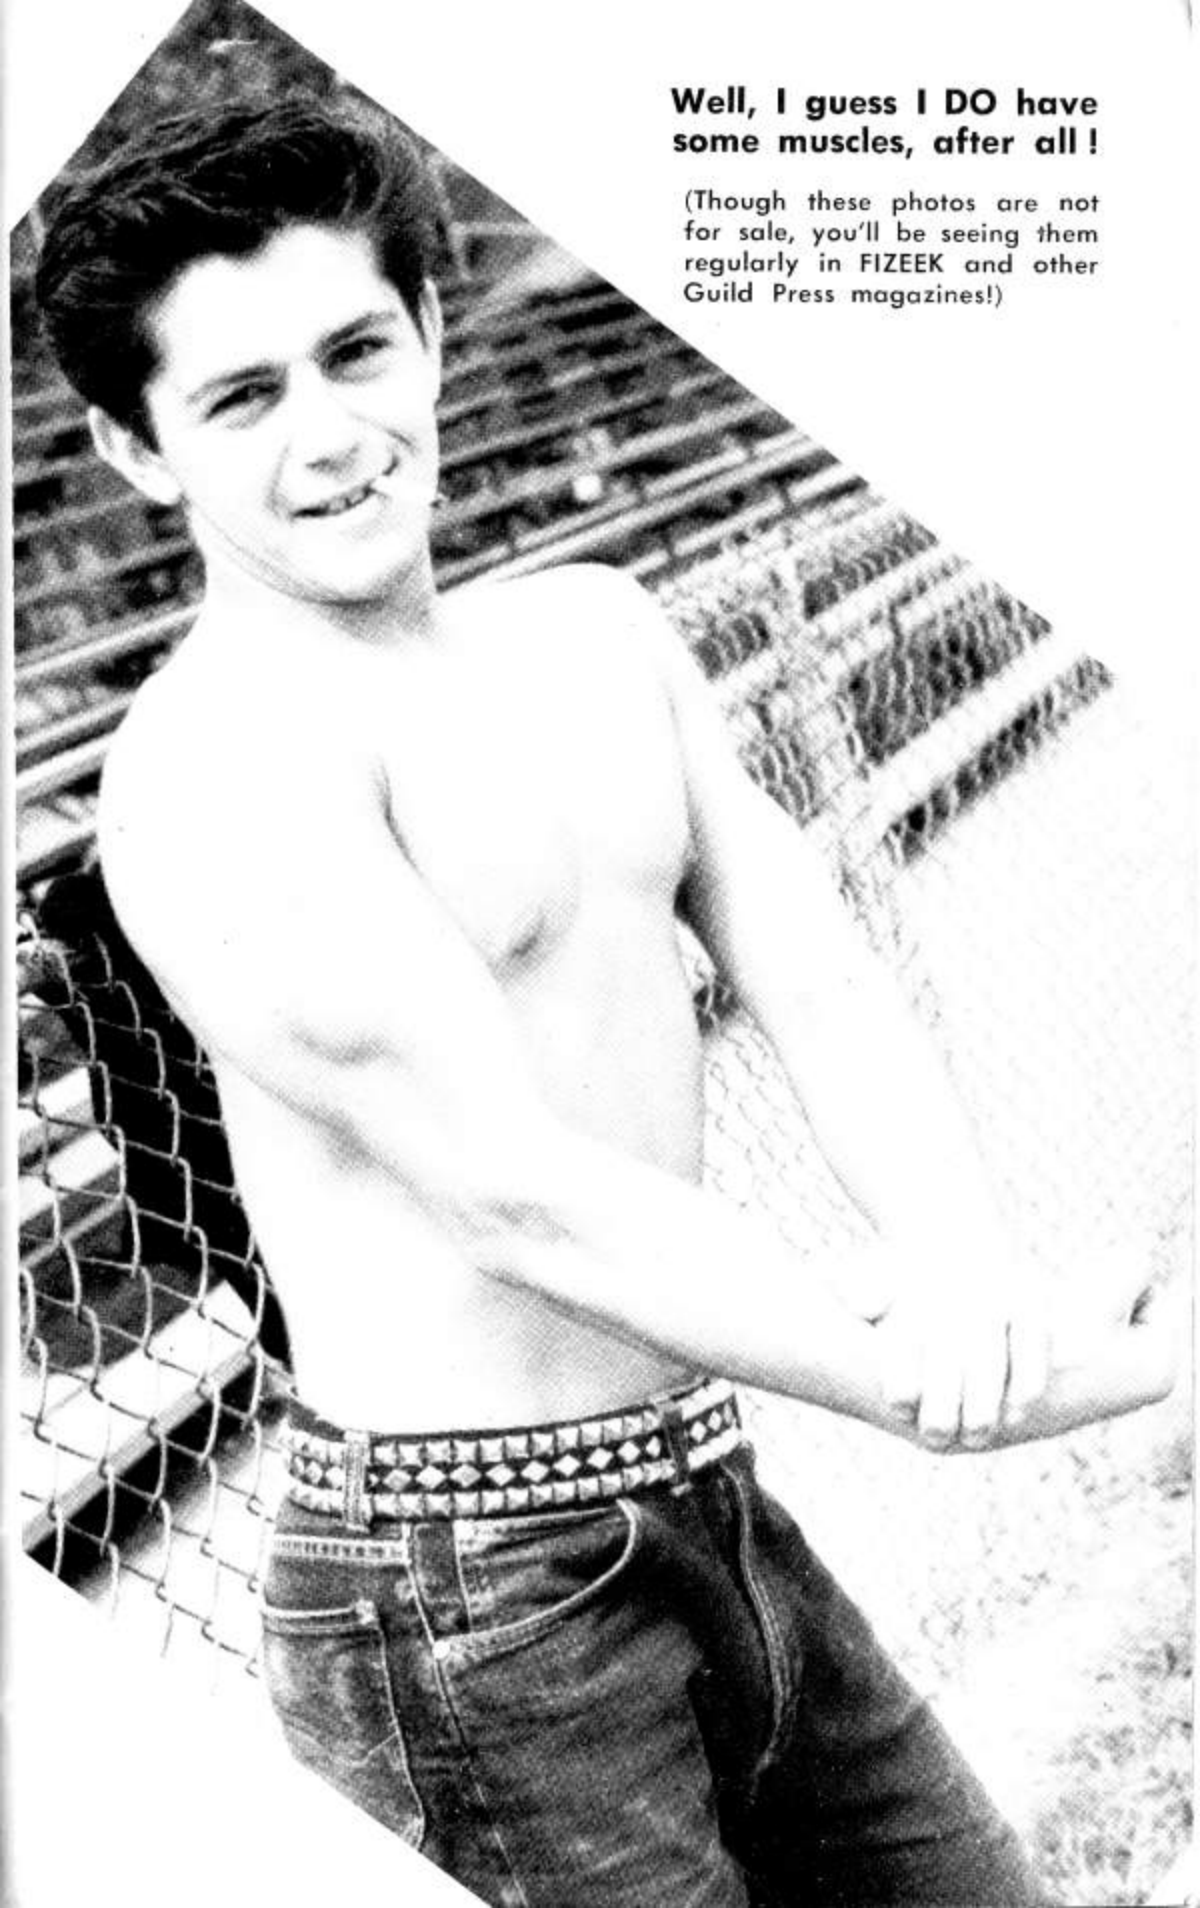


Whatever
next?

To go in
a
magazine?
Why, sir,
you must
be
kidding!

photos
by
ALLISON





Well, I guess I DO have some muscles, after all!

(Though these photos are not for sale, you'll be seeing them regularly in FIZEEK and other Guild Press magazines!)

'New' is one of the oldest words in the dictionary, but it applies with truth to these photos. Johnny Rankin is the new model, Discus the new studio, and they're just as exciting and exhilirating as 'new' people should be! Give them your support—and don't forget you saw them in Fizeek—'the lively one!'

ALOHA THERE!

It's Steve Jayson, blond bombshell from Albany, New York!

Steve is 18, of Polish-Dutch extraction, and a real bundle of energy and high spirits.

He runs his own photo studio, and these fine shots of him were taken on a trip to Hawaii.

Why don't you drop him a line and say 'Aloha' too—better still, give him a boost by ordering some of his photos?

His address is in the back pages, and some more shots for you on the next two.

JACK MULLIGAN in photos from **PLATO**

You Are Invited . . .

. . . to be among the fifteen hundred connoisseurs of physique art who will thrill to the magnificence of the world's most exclusive physique publication, Troy Saxon's GALLERY.

Gallery . . .

. . . is a superb presentation of the male form, as depicted in previously unpublished photographs by Troy Saxon.

. . . is printed on rich, embossed art velum, in the seven-by-ten-inch format, with eight full color pages. It contains no advertising.

. . . is designed for those who appreciate the male physique in its natural beauty and grace. In its presentation of the male body . . . in its intent . . . in its unique scope . . . GALLERY is itself a modern work of art.

Gallery . . .

. . . is limited to fifteen hundred signed and numbered copies, available only from Troy Saxon. It will not be offered on news stands nor in book stores . . . and it will not be reprinted. It will be, and is intended as, a publication for the mature adult . . . the discriminating physique devotee.

. . . may be ordered in advance of its August 15 publication date at five dollars per copy, as long as the fifteen hundred-copy edition lasts. To avoid disappointment, it is suggested you order immediately. Orders which cannot be filled will be returned. Because of the nature of the book, it is recommended only for adults.
